PERSONAL OUTCOMES ELEMENT

A. PHYSICAL AND SOCIAL ENVIRONMENT

These questions capture the quality of the consumer's school, work, and living environments. The response options for each question represent increasing levels of independence, well-being, inclusion, and/or productivity. Select the level that best describes the consumer's current situation, disregarding both past circumstances and any temporary fluctuations (e.g., being out of school on vacation) that may be occurring now.

In the questions below, the phrase **person with a disability** refers to someone other than the consumer who has a developmental disability or special need for support in a given setting. **Speaking the consumer's language** means being able to communicate about daily matters and engage in social interaction with the consumer.

Please use the best informant available for each question. It is important that the person(s) providing information for this section be sufficiently knowledgeable about the particular area of a consumer's life to provide an accurate and unbiased picture.

If you are unable to provide a response to a question, please explain why.

Record *Question Does Not Apply (N)* if for any reason the question is not appropriate.

If a knowledgeable person is not available to provide information, record *Current Information Not Available* (Q)

These questions are written to be understood and answered by service coordinators. Do not read them to consumers, family members, or caregivers verbatim. Instead, use your own words to request the information that you need to answer the questions.

School & Work

Questions in this section do not apply to all consumers. If the consumer does not participate in the type of setting specified in a question, record Question Does not Apply (N) and proceed to the next one. Please Note:

Questions 1 through 3 apply only to consumers who attend school.

Questions 4 through 6 apply only to consumers who work and/or attend a day program Questions 7 and 8 apply only to consumers who work for pay.

- 1. What type of school does the consumer attend?

B. HEALTH & SAFETY

These questions capture the extent to which the consumer is safe and has access to needed health care services. The response options for each question represent increasing levels of care. For each question, select the response option that most accurately describes the consumer's situation during the preceding 12 months. (Please note change in time frame from the previous section.)

Please use the best informant available for each question. It is important that the person(s) providing information for this section be sufficiently knowledgeable about the particular area of a consumer's life to provide an accurate and unbiased picture.

If you are unable to provide a response to a question, please explain why.

Record Question Does Not Apply (N) if for any reason the question is not appropriate

If a knowledgeable person is not available to provide information, record *Current Information Not Available (Q.*

Record Consumer Refused Care (X) if care was made available, but consumer refused it.

These questions are written to be understood and answered by service coordinators. Do not read them to consumers, family members, or caregivers verbatim. Instead, use your own words to request the information that you need to answer the questions.

 - 4 = No
 - N = Question does not apply
 - X = Consumer refused care
 - Q = Current information not available

C. CONSUMER SURVEY

These questions capture the consumer's own feelings about his or her life. The consumer must provide the information in this section without someone else interpreting the response. If the consumer is not able or willing to provide any of this information, indicate why below.

If the consumer did not answer any of the questions in this section, indicate why by selecting one of the responses below. You should also put the appropriate response next to all questions in this section.

- X = The consumer is not able to respond without interpretation and/or cannot understand the questions.
- Q = The consumer is not available to respond at this time.
- R = The consumer chooses not to respond to any of the questions.

Begin by explaining that the purpose of the questionnaire is to find out how the consumer feels about his or her life. Mare sure the consumer understands that he or she should describe feelings and impressions that are current (within the previous month or two), not those that may have occurred at an earlier time.

These questions should be read aloud. Fill in the name of the pertinent person, place, or agency as needed, using terms the consumer would recognize (e.g., "Do you like going to the Lauren Training Center?") You may paraphrase the question if the consumer asks for clarification or repeat the question as needed.

Do not read the response options to the consumer. Instead, allow the consumer to respond naturally. Listen carefully to the consumer's response, requesting clarification as needed.

- If a particular question is not appropriate for this consumer do not read it. Record *Question Does Not Apply (N)* and move on to the next question.
- Record *Not Sure (X)* if the consumer is unsure or does not understand the question.
- Record *Consumer Chooses not to Answer R* if the consumer prefers not to answer a particular question.
